

COMPANY PROFILE

# OVERPAR SOLUTIONS

Experts in Applied Innovation

If you want to ease your data handling or data transformation, automate your documentation and analysis of machine data, bring agile and lean mindsets and methods to your company, or start your digital transformation with professional guidance, Overpar Solutions is the perfect fit for you.

The new digital tools and methods can create real value both by cutting costs and exciting your customers. Incredible possibilities are awaiting the innovative mind. Let us leverage them together.

**OVERVIEW** Overpar Solutions Est.— Experts in Applied Digital & Agile Innovation  
We have realized innovative projects with outstanding results since 2003. Our expert network enables us to form specialized teams just in time. We work 100% agile, run projects with SCRUM methods and produce custom-tailored solutions.

**OFFER** A great solution achieves results quickly and at the highest quality. It also integrates perfectly into your existing workflow and improves its efficiency continuously. We identify the key potentials and develop customized solutions to exploit them. We see seamless integration, organizational learning and evolving competitiveness as keys to success.

**SOLUTIONS** We digitalize workflows, implement agile leadership and team cultures, improve and build digital footprints, work with industry data, automate documentation and reporting processes and much more. Each challenge receives its optimum solution.

**OBJECTIVE** Leveraging your full potential for highest quality and reduced cost.

            ani
    
```

## DIGITAL TRANSFORMATION

Most companies are in a phase of change because, as never before, digital technologies can be integrated into everyday work to create a significant competitive advantage.

- Our experts advise you in the selection of software solutions, or develop custom-tailored products to increase your process efficiency.
- We let your data work for you. Not the other way around. Leverage the results to increase decision and usage quality.
- We work with you in the development and implementation of your digital transformation strategy. From the beginning to the end.

## DIGITAL COMPANY PRESENCE

10 years ago, this meant having your own company website. Now the world of digital marketing is more dynamic. To customize and combine all components is our speciality.

- Specialists analyze existing websites and come up with concrete recommendations.
- Our experts implement technical and content optimizations.
- We analyze and optimize the way your potential customers find you and identify possibilities to improve the conversion rate.

## E-LEARNING

Leverage digital and electronic media to support knowledge transfer in your company. From the conception to on-the-job support, Overpar Solutions has been a proven partner for many years.

- We advise you in the development and implementation of an innovative knowledge transfer strategy.
- Special focus on intercultural aspects and successful change leadership.

## DATA-MAGIC

Smart Data not Big Data. You get the needles, not the haystack. We are mining and preparing data so that they are really useful to your business.

- We are experts in migrating, processing and presenting your data.
- On this basis, feed the performance of machines and systems into your operational and strategic decision-making.

## 100% AGILE

Agile methods are making their way into every industry. Properly applied, they allow highest performing teams and companies.

- We work 100% agile according to the SCRUM method and the LEAN principles.
- We support you integrating agile methods and cultures into your company.

## CASE STORIES

CERTIFIED EUROPEAN E-LEARNING MANAGER

### eLearning – EU-Project

Overpar Solutions managed a European eLearning-Project from 2004 to 2009. The 8 partners were spread from Finland to Greece, covering many EU cultures. The "CELM - Certified European eLearning Manager" won an EU innovation award and is used as a management tool for eLearning projects in approximately 180 German and Austrian SMEs.

### Ellie – Automatic analysis and documentation of machine data

When validating new injection moulds or during process trials, the machine produces data representing the process and the machine settings. Ellie statistically analyzes and validates these data, and returns technical reports and production documents in seconds. Achieve highest quality in less time.

Institut für Kommunikation & Führung  
Institute of Communication & Leadership

### IKF website analysis and optimization

The existing web presence of the IKF, Institute for Communication and Leadership in Lucerne, was analyzed with focus on unused potential. Concrete recommendations for action were derived and implemented in a follow-up project. The search engine rating and the entire appearance of the IKF on the Internet were improved and professionalized.
